## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1, 3, 5-9, 11, 12, 19-21, 23-29 and 34-50 are allowed.
2. The following is an examiner's statement of reasons for allowance: With respect to independent claims 1, 9, 19 and 27 the instant invention is directed to an interactive enabling system and method for managing interactive program content associated with enhanced program content and interactive commercial content associated with commercial spots. The relevant prior art of records, such as **Barone, JR. et al (2005/0005303)** discloses system and method for transmitting and displaying interactive TV content. **Srinivasan et al (6,357,042)** disclose method and apparatus for multiplexing separately authored metadata for insertion into a video stream. **Kalluri et al (5,937,331)** discloses a broadcast stream (AVI signal) including program pre-triggers (trigger command for loading the interactive program) and interactive program triggers for retrieving the interactive program (trigger command for playing the interactive program). **Andrade et al (2002/0059644)** discloses method and system for automatic insertion of interactive TV triggers into a broadcast data stream. **(ATVEF Spec.)** discloses that the interactive enabling device is configured for receiving and responding to the program pre-triggers, the interactive program triggers, the commercial pre-triggers, and the interactive commercial triggers embedded in the broadcast stream to ensure that the interactive program and commercial content do not overlap and interfere with each other. **Markel (6,791,579)** discloses method of enhancing streaming media content. However, neither **Barone, Srinivasan, Kalluri, Andrade, ATVEF Spec. nor**

**Markel** and any of the cited references teach or suggest, alone or in combination the feature of "...where the interactive program and commercial content includes a plurality of segments, each segment including multiple pre-triggers, and each pre-trigger of the multiple pre-triggers for a segment corresponding to a particular type of communication link speed..." as recited in combination with other features of independent claims 1, 9, 19 and 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Tomsen (7,313,802) disclose method and system to provide deals and promotions via interactive video casting system.

Leak et al (7,174,562) disclose interactive TV triggers having connected content/disconnected content attributes.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Annan Q. Shang** whose telephone number is **571-272-7355**. The examiner can normally be reached on **700am-400pm**.
